Subject:	RE: DPH Computer servers - Umass Amherst

Hi Eric,

Please work with William (Kip) Dole who works at the State Lab on Drug Lab application support issues. Copying Julie Nassif on this as well because she oversees the Drug Lab areas.

Thanks…Dina

Hello,
 Thanks for dealing with the IT issues in Amherst. Part of my job requires me to oversee campus operations in JP and Amherst for DPH. Can you please copy me on any emails related to this renovation project? Will you also copy Dina Caloggero who oversees IT functions for the Lab Bureau and needs to be kept in the loop? Thanks/

Grace

Eric,

Right now the project is in design and we will be going out for bids around June first. Construction will likely start a month or so after that. Nothing firm yet. If you are going to be on campus next week I'd like to try to meet and I can go over the plan and talk about DPH IT. I will not be in Monday but should be around most of the week. Please let me know when you were planning on coming out.

Thanks,

Stephen

Stephen,

I have been asked to assist with the coordination of DPH IT services related to the Morrill I renovations in Amherst.

Currently there are two servers, a switch, router and CSU in room N251A. This is also the termination point for the data circuit.
We should be able to temporarily move the servers to another location without too much trouble as long as there is a data connection. The other network equipment will present more of a challenge since we will need to maintain a WAN connection all occupied offices.

Can you tell me what the timelines are for the project and how it is going to be staged? Also, does the project include new data cabling and/or a new location for the servers and network hardware?

I'll be going over to the site early next week to take a fresh look around. I look forward to working with you. Let me know what I can do to help make this project go as smoothly as possible.

Thanks,
-Eric

Subject: DPH Computer servers - Umass Amherst

To All,

I have been assigned the project to relocate and renovate DPH areas in Morrill I on the Umass Amherst campus. As part of this project rooms 247 – 251 will renovated and reconfigured. Currently there are computer servers in this area. Prior to the renovation the servers will need to be relocated to be sure they remain in use and do not get damaged. In addition staff will be relocated from 424 to 224. This will make modifications to the computer network necessary. Can someone please help coordinate the relocation of the servers and related computer hardware. I would also like some information on how modifications to the computer network take place. I have attached a preliminary floor plan for your information.

Thanks,

Stephen
